

Index

A

Accomplishments of Board, 6
 Acoustic technologies
 for forage species, 57
 passive research, 113, 113
 for squid, 58
 and whales, 112
 Administrative caps, 197
 Administrative provisions, Science Panel, 251–252
 Advanced Dual-frequency identification SONar (DIDSON), 83
 Advisory groups statement, Board, 245
 Advisory Panel (AP)
 2003-2008 members, 213
 and Board, 184
 and committees, 9, 10, 169, 170
 meeting cycle, 14
 membership, 13, 190
 policies and procedures, 254–255
 proposal reviews, 191–192
 Aerial remote-sensing technologies, 57
 Affiliated work groups, 251–252
 Alaska Coastal Current, 34
 Alaska Marine Information System (AMIS), 10, 179–180
 Alaska Marine Science Symposium student awards, 178
 Alaska Ocean Observing System (AOOS), 180
 Alaska red king crab fishery, 59
 Alaska SeaLife Center, 14, 174, 259
 Albatross, 136, 136, 137
 Aleutian coral gardens, 46–47
 Aleutian Islands, forage resources of the, 96, 96
 Aleutian Pass circulation project, 31
 Algal blooms, 156
 Alternates and designees statement, 245
 Ambient noise in Beaufort Sea, 123
 AMIS (Alaska Marine Information System), 10, 179–180
 AOOS (Alaska Ocean Observing System), 180
 Arctic Ocean synthesis, 23
 Arctic Synthesis workshop, 99
 Assessment technologies, 60
 Audits, 203
 Auklet survival in climate change, 129
 Authority of Board, 260
 Autonomous underwater vehicle (AUV), 58
 AUV (autonomous underwater vehicle), 58
 Awards, science fair, 177

B

Background of NPRB-OSRI collaboration, 275
 Bathymetric map, 47
 Beach monitoring, 130
 Bering Sea
 flatfish habitat in eastern, 42
 program brochure, 163

 southeastern shelf, 27, 28
 and Strait Sea Ice Database, 23
 Bering Sea Climate Database, 23
 Bering Sea Ecosystem Study (BEST), 11, 267
 Bering Sea Integrated Ecosystem Research Program (BSIERP),
 11, 160–163, 268
 BEST (Bering Sea Ecosystem Study), 11, 267
 Bitter crab syndrome, 86, 86
 Blooms, algal, 156
 Blooms, phytoplankton, 28
 Board decisions, 187
 BSIERP (Bering Sea Integrated Ecosystem Research Program),
 11, 160–163, 268
 Budgets
 crisis of 2003, 198
 and financial policy, 196
 overview, 199–200
 projects, 222–233
 Bycatch, 82, 83, 84, 85

C

Calanoid copepods, 57
 Calendars, photo contest, 176
 Capelin, foraging success of, 65
 Carbon stable isotope ratios, 106
 Catastrophic events, warning of, 31
 Chiswell Ridge habitat, 44
 Chiswell Ridge, mapping, 50
 Chlorophyll models, 30, 30
 Citizen-science program, 130
 Climate change
 auklet survival in, 129
 and jellyfish fluctuations, 93
 long-term, 123, 127
 and Pacific cod productivity, 92
 response, 30
 on walrus, 123
 Climate variations, 32
 COAST (Coastal Observation and Seabird Survey Team), 130
 Coastal Observation and Seabird Survey Team (COAST), 130
 Cod, 63, 74, 92
 Cold pools in Bering Sea, 27
 Commercially important species, 46–47
 Committees
 and advisory panel, 2003, 9, 10
 Board, 184
 current, 12
 ecosystem modeling, 12, 14, 192
 executive, 9
 members, 169, 170, 213
 National Research Council study, 19–20
 statement, 245
 structure of North Pacific Research Board, 188–192

Communication programs, 15

Communities

- dependence on fisheries, 148
- education and outreach, 173–178
- monitoring shellfish poisoning, 156

Compensation, Board, 188

Conciliation of Memorandum of Understanding, 262

Conduct of meetings, 246–247

Confidentiality of video and photographic information, 195

Confidentiality provisions, NPRB-OSRI, 276

Confidentiality requirements of Science Panel and independent reviewers, 252–253

Conflict-of-interest

- for Advisory Panel, 255
- Board, 187
- independent reviewers, 252–253
- independent technical reviewers, 252–253
- NPRB-OSRI collaboration, 276
- rules in committees, 189
- Science Panel, 252–253, 255
- in voting, 247

Contaminants, 153, 155

Contingency plan, NPRB-NSF, 270

Continuous Plankton Recorder (CPR), 36

Cooperative arrangements statement, 245

Copper River salmon and estuaries, 90, 90

Coral habitat in Aleutian Islands, 46–47

COUNCIL (North Pacific Fishery Management Council), 181

CPR (Continuous Plankton Recorder), 36

Crabs

- bitter crab syndrome, 86, 86
- blue king, 45, 143
- bycatch, 85
- fisheries and social issues, 143, 144
- market models for, 143
- red king, 48, 59, 60, 87, 87
- snow, 70, 71, 79, 80, 86, 94
- species decline, 45
- Tanner, 71, 86

D

Data

- management policies, 10
- and metadata management, 181
- MOA collaborative project, 263
- near real-time, 28
- preservation, 15
- protocols of NPRB-NSF, 271
- systems manager, 180

Databases

- Bering Sea and Strait Sea Ice, 23
- Bering Sea Climate, 23
- development, 22–23
- herring, 101
- seabird diet, 127

- web-accessible salmon, 100
- worldwide, 100

Debarment of subrecipient, 258

Designees and alternates statement, 245

DIDSON (Advanced Dual-frequency identification SONar), 83

Dinoflagellates, parasitic, 86

DNA based assay (QPCR), 59

Dogfish life histories study, 68

Dogwinkles, contamination in, 155

Domoic acid toxins, 157

Driver-Pressure-State-Impact-Response approach, 97

Durations of Board meetings, 247

E

Ecology

- behavioral, 61
- foraging, 64, 105
- North Pacific Right Whales, 113
- phytoplankton, 35
- population, 66

Eco-sounder technology, 57

Ecosystem Modeling Committees, 12, 14, 192

Ecosystems

- change on fishery management, 91
- early warning indicators, 31
- indicators in resource management, 97, 97
- management in Alaska waters, 143
- marine mammals and managing, 141
- mesoscale marine, 36
- nearshore, 172
- research programs, 15, 159, 160
- roles of habitats, 41, 50

Education programs, 15, 175, 175

EFH (essential fish habitat), 39

Egg case density, skate, 43

Eiders, world population of spectacled, 134, 134

Eiders foraging behaviors, 133

EIRF (Environmental Improvement and Restoration Fund). *see* Environmental Improvement and Restoration Fund (EIRF)

Elasmobranchs, life histories of, 68

Elevation of resolution with subrecipients, 257

Employees of 2008 Board, 14

Encounters North, 175

Environmental change, 91

Environmental Improvement and Restoration Fund (EIRF)

- authority of, 259
- budgeting, 196–199
- establishment of, 8
- funding, 243, 260, 261
- grants, 200–203
- and National Ocean Service, 187

Environmental issues, 78

Equipment purchases, 193, 265–266

Equipment purchases, Board, 193

Essential fish habitat (EFH), 39

Establishment of Board, 6, 8

Estuaries, salmon in, 61, 90
 Euphausiids, distribution of, 65
 Executive committee, Board, 9
 Executive committee decision matrix, 250t
 Exhibits, 173
 Expenses statement, 245
Exxon Valdez Oil Spill Trustee Council Memorandum of Agreement, 263–264

F

Ferry boxes, 34
 Financial commitments of Institute, 262
 Financial policies, Board, 196, 198–199
 Findings of MOA collaborative projects, 263
 First Year Planning, NPRB-NSF, 270–271
 Fiscal policy decisions statement, 245–246
 Fish
 commercially important, 46–47
 habitats, 39
 hot spots, 57, 58
 and invertebrates projects, 53–55
 presence/absence criteria, 48
 sustainable populations, 144
 Fisheries
 community dependence on, 148
 cost of closing, 141
 depredation events of, 121
 deterrent measures of, 121
 flatfish, 42
 impacts on sea crab, 144
 interaction studies, 118
 interactions and population conservation, 136
 management and ecosystem change, 91
 management councils, 51
 red king crab, 59
 safety in halibut, sablefish and pollock, 145
 and seabird habitat overlap, 137
 and seals, 118
 social issues and crab, 143
 status of, 56
 Fishing, effects of, 46–47, 47, 51
 Fishing safety, 145
 Fluorescence, 27
 Forage fish productivity nearshore in Gulf of Alaska, 95
 Forage resources of the Aleutian Islands, 96, 96
 Forage species, 44, 57, 95
 Four Mountains in Aleutian Islands, 41
 Frequency of Board meetings, 247
 Freshwater discharge, 34
 Fulmars, 135, 137
 Funded research projects, 222–233
 Funding approaches, NPRB-OSRI, 276
 Funding commitments of NPRB-NSF management plan, 267
 Funds
 for Continuous Plankton Recorder studies, 36
 distribution of, 21f1, 21t2, 22, 22t3

by institution, 220–221
 modular approach, 165
 NPRB-NSF announcements of opportunities, 268
 sources of, 196
 summary of proposal, 20t1
 Future of Board, 206–207

G

GEM data management MOA, 265–266
 General provisions of MOA, 264
 General provisions of NPRB-OSRI collaboration, 277
 Genetic markers, 76
 Geographic scope of Bering Sea Ecosystem plan, 267
 GOAIERP (Gulf of Alaska Integrated Ecosystem Research Program), 164–165
 Goals statement, 8, 243
 Graduate student research awards and recipients, 178
 Grant 1, EIRF, 200–201, 201t
 Grant 2, EIRF, 202, 202t
 Grant 3, EIRF, 203, 203t
 Grant funding, 196
 Grant funding, Board, 196, 200–203
 Grants and projects of Institute, 261
 Graves Rock, and sea lions, 141
 Grazers impact on kelp beds, 94
 Great Circle Route, 36, 36
 Greenland halibut population, 75
 Guiding principles of subaward compliance, 256
 Gulf of Alaska Ecosystem Program, 2008, 11
 Gulf of Alaska Integrated Ecosystem Research Program (GOAIERP), 164–165
 Gulf of Alaska, monitoring, 32

H

Habitats
 beluga whales, 111
 closing fisheries in, 141
 coral, 46–47
 declining crab species, 45
 mapping, 46–47, 48, 50
 marine, 41, 111, 134
 nearshore, 44
 Pacific Ocean Perch, 49
 right whales, 113
 seafloor changes in Norton Sound, 48
 sponge, 46–47
 untrawlable, 58
 Halibut
 decline in population, 75
 harvests, 146
 migration patterns of, 62
 spawning locations, 62
 Harvests, subsistence, 146, 147
 Health risks of eating walrus, 149
Healy cruise, March 2008, 162
 Herring, 66, 92, 101, 101, 131, 131

Highlights, meeting and activity, 9–11, 204–205
 History of Board, 6
 Honoraria for reviews, 189
 Hot spots, fish, 57, 58
 Human health and marine resources, 149
 Human projects, 139
 Human-related impacts, 122
 Hydrocarbons in Nelson Lagoon, 153
 Hydrocoral survey on Chiswell Ridge, 50
 Hydrophone instrument, 113

I

Ice occurrences in Bering Sea shelf, 28
 Implementation plan, Board, 20
 Implementation plans, 20
 Incidental catches, 82
 Individual program emphasis, Bering Sea Ecosystem, 268
 Information, MOA collaborative project, 263
 Institutions, funding by, 220–221
 Institutions, project, 222–233
 Integrated ecosystem research programs, 15, 159, 160, 170
 Interagency agreements, 194
 Invertebrate and fish projects, 53–55
 Invertebrates, chemicals in, 153
 Investigators, project, 222–233

J

Jellett PSP test strips, 156
 Jellyfish biomass trends, 93
 Joint funding approaches, NPRB-OSRI, 276
 Joint meetings, MOA, 264
 Joint protocol for NPRB and Oil Spill Recovery Institute, 275–277
 Joint research priorities, 275

K

Kachemak Bay sediments, toxicity of, 155
 Kasatochi volcano, 129
 Kelp beds, impacts of grazers on, 94
 Kelp species, common, 94
 Killer whales, diet of, 107, 107
 Kittiwakes near St. George Island, 161
 Kodiak Island, impacts of trawls near, 51
 Kvichak salmon, declines in, 88

L

Landscape genetics, 74
 Legislation, enabling, 8
 Legislative authority and function, 243
 Lingcod, 44
 Linux based server purchase, 265–266
 Little Green Island, Prince William Sound, 114
 Local and traditional knowledge (LTK) research, 168–170, 169, 213
 Location of North Pacific Marine Research Institute, 260
 Longline fishery, observations of, 85

Long-term climate change, 123, 127
 Long-term monitoring policy, 193
 Long-Term Observation Program (LTOP), 33
 Long-term planning goals, 195
 Lower trophic levels (LTL), 25, 26
 LTK (local and traditional knowledge) committee members 2003-2008, 213
 LTK (local and traditional knowledge) research, 168–170
 LTL (lower trophic levels). *see* Lower trophic levels (LTL)
 LTOP (Long-Term Observation Program), 33

M

Mackerel, reproductive biology of, 72–73
 Mackerel and pollock, predator/prey models for, 81
 Magnuson-Stevens Act, 82, 145
 Management tool development, 127
 Management tools, 98
 Mapping
 Chiswell Ridge, 50
 corals and sponges, 46–47
 habitats workshop, 50
 Pacific Ocean Perch, 49
 Marbled murrelets, herring decline and, 131
 Marine habitat use, 111, 134
 Marine mammals, 103
 Marine mammals and managing ecosystems, 141
 Marine research components, 18
 Marine resources and human health, 146, 149
 Marine science program, 7
 Measurements of southeastern Bering Sea shelf, 27, 28
 Mediation with subrecipients, 257
 Meetings
 Advisory Panel, 255
 annual cycle, 14
 Board, 246
 Board statement, 245–246
 closed Board, 247
 emergency, 247
 highlights of activities, 204–205
 locations of, 247
 organization, 9
 standard Board procedures, 187
 Members
 2003-2008 Advisory Panel, 213
 2003-2008 LTK committee, 213
 Advisory Panel, 254
 Board, 9, 12, 185, 210–211
 Board decision matrix, 250t
 and officers of Science Panel, 251
 Science Panel 2002-2008, 212
 Science Panel selection process, 252
 statement of Board, 244
 Memorandum of Agreement (MOA):
 Exxon Valdez Oil Spill Trustee Council, NPRB, and University of Alaska, 263–264
 GEM Data Management, 265–266
 North Pacific Marine Research Institute (NPMRI), 259–262

Mercury levels in murre and gulls, 155
 Metadata and data management, 181
 Micronektons, 57
 Minutes of Board meetings, 247
 Mission of Advisory Panel, 254
 Mission of Science Panel, 251
 Mission statement, Board, 8, 243
 Models
 chlorophyll, 30
 circulation, 29
 for crab markets, 143
 new, 81
 nutrient-phytoplankton-zooplankton, 34
 of pollock, 81
 salinity and zooplankton in Gulf of Alaska, 37
 sea ice, 30
 Modular approach to funding, 165
 Monitoring policies, Board, 193
 Monitoring programs, 28, 31, 31, 32, 100
 Moorings, biophysical, 28, 28
 Murre eggs, 154
 Muscles and skin nitrogen stable isotope ratios, 105–106
 Mussels, analyzing contamination in, 155
 Mussels on beach, 155

N

National Ocean Service, 187
 National Ocean Service (NOS), 188
 National Oceanic and Atmospheric Administration memorandum of agreement, 259
 National Research Council (NRC), 19–20
 National Science Foundation (NSF)
 2006 partnership, 11
 Bering Sea Ecosystem schedule, 271
 criteria for proposals, 273
 supporting BSIERP, 163
 Native scientist involvement, 189
 Near real-time data, 28
 Nearshore areas, forage fish in, 44
 Nearshore habitat, Northern Bristol Bay, 49
 Nearshore monitoring program, 31
 Nelson Lagoon, hydrocarbons in, 153, 153
 Noise in marine environments, effects of, 123
 Nominations of Advisory Panel, 254
 Non-compliance of subaward agreements, 256–257
 Non-RFP/IERP science, 200
 North Pacific Fishery Management Council (COUNCIL), 181
 North Pacific Marine Research Institute (NPMRI), 197, 260–261
 Norton Sound, 48
 Notices of meetings and hearings, 246
 Notification of subrecipient policies, 258
 NPRB-NSF management plan, 267
 NPRB-OSRI collaborations, 172, 275–277
 NPZ (nutrient-phytoplankton-zooplankton) models, 29, 34
 NPZ (nutrient-phytoplankton-zooplankton) studies, 25
 NRC (National Research Council), 19–20

NSF (National Science Foundation). *see* National Science Foundation (NSF)
 Nutrient-phytoplankton-zooplankton (NPZ) model, 29, 34
 Nutrient-phytoplankton-zooplankton (NPZ) studies, 25

O

Objectives and duties of Science Panel, 251
 Ocean measurements, 27
 Ocean monitoring, 27–28
 Ocean observing systems, 28
 Ocean wildlife populations, 114
 Officer rotation, Board, 187
 Officers and terms of office statement, 244–245
 Oil Spill Recovery Institute (OSRI), 275–277
 Operations, Advisory Panel, 255
 Organization statement, Board, 244
 Organizational meetings, 2001 Board, 9
 Organizational meetings, NPRB-NSF, 270–271
 Otoliths, daily growth rings in, 90
 Out-of-cycle proposals, 195
 Outreach programs, 15, 175, 175

P

Pacific-North American Index, 48
 Panel photos, 214–215
 Participation of others, MOA, 264
 Parties, MOA collaborative, 263
 Partnerships, 167
 PBDE (polybrominated diphenyl ether), 153
 Perch, 41, 49, 74, 77
 Photo contest, NPRB annual, 176, 176
 Photos of Board, 214–215
 Phytoplankton blooms, 27, 28
 Phytoplankton ecology, 35
 PIC (Pribilof Islands Collaborative), 147
 Pigmented macrophage aggregates (PMA), 66
 Plan completion, 2005 science, 10
 Planning, 2004 science, 10
 Planning goals, long-term, 15, 195
 PMA (pigmented macrophage aggregates), 66
 Poisoning from shellfish, 156
 Policies and procedures
 Advisory Panel, 254–255
 Advisory Panel (AP), 254–255
 affiliated work groups, 251–252
 of Board, 248
 review of, 184
 Policy compliance with subaward agreements, 256–258
 Policy issues, miscellaneous science, 193–195
 Pollock, foraging success of, 65
 Pollock, models for, 81
 Pollock predators, 82, 82

 meeting in Seward, Alaska, 10
 members 2002-2008, 212
 members 2008, 13
 membership, 188
 policies and procedures, 251–252
 recommendations for LTK research, 169
 Science Plan
 completion, 10
 making of, 19
 research approaches, 53
 Science planning, 2004, 10
 Science Program, 7
 Science teachers outreach programs, 177
 Scientific review of proposals, NPRB-OSRI, 276
 Scientific review requests, 181
 Scope of collaborative projects, 259
 Sculpin, ecological role of, 69
 Sea lions, stellar, 119, 119, 122, 122, 141, 141
 Sea otters, 117, 117
 Seabird Tissue Archival and Monitoring Project (STAMP), 154, 154

Seabirds

- changes in diets, 133
- climate change and the Bering Sea, 128
- contaminants in eggs, 154
- diet database, 127
- diets and fish returns, 79
- and foraging, 132
- habitat and fisheries, 137
- productivity and nutritional stress, 133
- shipbased observers of, 135, 135
- studies of, 125
- surveying, 135
- workshops, 127

Seals

- first winter for pups, 109
- foraging strategies of northern fur, 108, 108
- harbor, 110, 110, 114
- health of, 115
- hole in ice, 115
- interactions with fisheries, 118
- movement of ringed, 115
- northern fur, 142, 142
- in Prince William Sound, 110
- ribbon, 115

SEASWAP (Southeast Alaska Sperm Whale Avoidance Project), 120, 120–121

Seward Line transect, 32

Shared resources, MOA, 264

Shellfish poisoning, community monitoring for, 156

Shifts, regime, 29

Ship-based technologies, 57

Single nucleotide polymorphism (SNP), 76, 117

Skate nurseries, 43

Skates life histories study, 67

Skin and muscles nitrogen stable isotope ratios, 105–106

SNP (single nucleotide polymorphism), 76, 117

Socio-economic baseline, Pribilof Islands, 147

SOPP (Statement of Organization, Practices and Procedures), 188, 242

Southeast Alaska Sperm Whale Avoidance Project (SEASWAP), 120, 120–121

Southeast Alaska synthesis, 22

SP (Science Panel). *see* Science Panel (SP)

Spatial issues, 80

Special fishing industry seat, 244

Species decline projects, 85

Spectacled eider, population of, 134, 134

Sperm whales targeting fisheries, 120, 120–121, 121

Sponge survey on Chiswell Ridge, 50

Squid, surveying, 58

Squid life histories study, 69

St. Paul community fishing, 148

St. Paul community meeting, 147

Stable isotope analysis, 105–106

Staff, Board, 14, 192
